Consider the Music of the Chautauqua

If you like music—and the chances are you do—you will be greatly interested in the Chautauqua's music. It is a most important part of the big, seven days' program.

The aim of the Chautauqua is to constantly raise the standards of music in every Chautauqua community. To do this, it offers each year the very best in music that can be had.

KLARA FARM-MUEHLING
Of the Muehling-Page
Recitals.

Military Girls: Six talented girls in military costumes and costumes of the plains, in a program of patriotism; songs of the plains, depicting frontier life and an orchestra. An entirely new program this summer. First day.

The Muehling-Page Recitals: Klara Farm-Muehling, soprano, former prima donna in the Aborn Stock Company; Ralph E. Page, baritone, and Lawrence G. Muehling, pianist. Second day.

The Chautauqua Quartette: Four male voices especially trained for Chautauqua work. Third day.

Lenge's Symphonic Orchestra. Eighteen pieces and all artists. The big feature in music. Fourth day.

The Riner Sisters and Irene Hummel: A musical and entertainment feature in original songs and stories. This has been the hit on more than three hundred Chautauquas. Fifth day.

The Cavaliers: Seven artists in costumes of the Elizabethan period. Sixth Day.

Mme. Christine Giles-Bingham Company: Four artists. Mme. Christine Giles-Bingham's first big success was in her tour with Fraulein Freida Sieman, the noted German pianist, in which the two starred jointly. She is a soprano and violinist. With her are H. E. Small, flute soloist; Olga Trumbull, cellist, and Harold W. Yates, pianist. A strong closing number.

The Chautauqua tickets are on sale among the business men right now. They are fifty cents cheaper than when the gate is open.

From The Dispatch

F. M. Phillips planted some Argentine corn this spring and says the blamed stuff is about ten feet high now. The Argentine corn has a smaller kernel and is much harder than our corn.

Clem Millard has his crew of carpenters working on the new bank building at Red Wing this week. The building will be one story frame, 18x26, with a cement vault.

Kasper Dahinten was busy Monday morning hunting for his auto. Some one had taken it for a joy ride during the night and traveled as far as Joe Johnson's place but Kasper had drained the water out of the radiator

and when the engine got so hot it would not run any longer the car was abandoned.

W. H. Cartmell is here from Stevens county visiting his brother, Jack. Will looks just like Jack only he is a little larger and a good many people mistake him for his pious Hoisington brother. Jack is entertaining his brother by letting him stack hay on the Cheyenne bottoms.

A. J. Anderson of Richland, Kansas, will return to his home next week after working through harvest for Bill Murdy. Mr. Anderson is a stone mason by trade and for the past eight years has worked in harvest here for Geo. and Bill Murdy. He is one of the Dispatch readers and has worked here so long that it seems just like home to him and he can't get along without the paper.

Mrs. Roy Cornelius and daughters and Mrs. W. J. Kinkel and daughter will leave on No. 3 tonight for a two months outing at Colorado Springs. They will

Mrs. John Hirsh of Pueblo arrived from Kansas City Monday morning to visit her parents, Mr. and Mrs. J. C. Baker. Mrs. Hirsh had been to Kansas City on account of the death of her sister's child. She expects to return to her home at Pueblo the first of next week and Mr. Hirsh may come down to return home with her. John is laid up with a broken arm received Jun 14. He has a job braking on the C. & S.

The council met last night to receive bids on the curb and gutter. Two bids were received. One from a Council Grove firm who bid \$1.05 per lineal foot and one from Ramsey of Great Bend for 80 cents per foot. The bids were held up for further consideration. The water supply was talked over but no definite action taken. It is probable that a different kind of pump will be tried on the present wells as it is thought that the pumps now in use are not drawing on the wells to a very large extent.
